GLOBAL SHARE PORTFOLIO

INVESTMENT OBJECTIVE AND STRATEGY

The objective of this direct share portfolio is to deliver long-term capital growth, by investing predominantly in quality dividend-paying, large-cap global companies.

INVESTMENT SUITABILITY

This portfolio is suitable for investors requiring long-term capital growth, and who can tolerate the volatility associated with equity markets. Investors should have a preference for large-cap companies, with a good track record of growing their dividends. The portfolio is managed in a benchmark agnostic manner. Given the very high equity exposure, the portfolio will be exposed to short-term negative returns, and the recommended holding period for investors is at least 5 years.
